

Guardian 20

Guardian Series

Product Overview

The Guardian Series are tailor-made for solo creators—your ultimate companion whether you're a solo photographer, video journalist, or small independent team juggling custom lighting setups and gear. Designed to effortlessly hold DSLR / mirrorless cameras, multiple lenses, tripods, and essentials, it's your reliable partner for fast-paced run-and-gun shoots and on-the-move travel photography.

Key Features

- Reinforced Top Lid:** Tough and durable, it shields gear stored inside or atop the bag—keeping your equipment safe, even when you're on the go.
- Top Lid Compartment:** Transparent mesh zippered pockets let you organize small essentials (memory cards, batteries, etc.) with instant visibility. No more fumbling—grab what you need in seconds.
- Modular Divider System:** Split-adjustable dividers let you customize the interior however you need. Safely separate cameras, lenses, and gear to prevent scratches and keep everything secure.
- Coated Bottom:** A rugged, coated base resists moisture, scratches, and wear—protecting the bag's foundation on rough terrain or damp surfaces, so it lasts trip after trip.

Tripod Connection	Yes
Water Repellent	Yes
Material	Double-ply 1680D PVC/PU (water-repellent) laminated to 1.5mm EVA + 210D nylon PU-coated

Features

Modular Compartments

Adjustable dividers, versatile pockets, and external attachment points transform the bag to fit any need: a fully equipped camera bag, drone carrier, audio recording pack, or cargo holder. One bag, endless setups.

Easy-Access Side Pockets

Grab frequently used accessories (lens cleaners, filters) instantly. External pockets keep essentials handy for quick on-the-go shoot adjustments.

Lid Organization

Transparent pockets keep small tools visible. Stay organized—no more mid-shoot searches for memory cards or batteries.

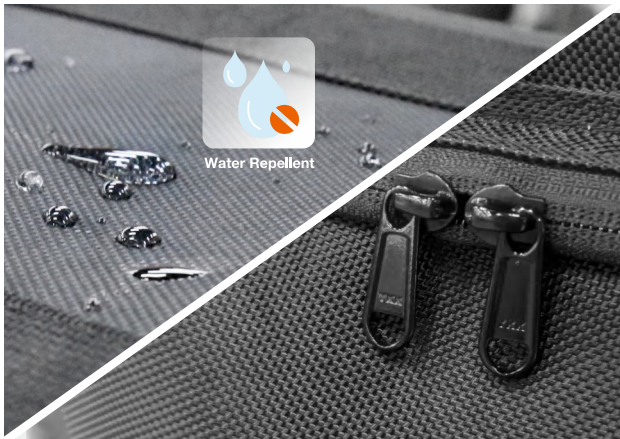

Top Lid Loading

Stack tripods, sliders, or accessories on the reinforced top lid—no extra bags required. Carry more, with less hassle.

Trolley-Friendly Design

Reinforced back webbing loops secure the bag to trolley cases. Glide through studios, airports & shoots effortlessly—travel light, move fast.

Water-Repellent Design

Light rain won't slow you down. The water-repellent coating on the top lid and base locks out moisture, keeping your gear dry and ready to capture the perfect shot—no matter the weather.

Smooth-operating YKK All-black Zippers

No snags, sleek scratch-resistant finish, durable for on-location gear access.

Comfy Carry

The ergonomic design of the shape and shoulder padding makes it comfortable to carry.
