

## HS02 Heavy Duty Stand

HS02 heavy duty stand designed to support heavy gear weighing up to 20kg at its maximum height of 211cm, with an extendable leveling leg for uneven terrain. The triple-function universal combo head has mounting options covered. Not only does it have 1-1/8" and 5/8" receivers, but it also has a multidirectional 5/8" stud. Optional dollies makes your stand movable while doing work in the studio.

### FEATURES

Triple function stand top with junior receiver, baby pin and baby receiver.

Compact top head with multi direction 16mm (5/8") light stud.

Ergonomic "T" shaped handles are "captive" and do not come off of the stand when unscrewed, preventing loss.

Upper spider casting with extender for storage on the rack.

Center column can be against the ground, to increase the stability.

Leveling leg allows stand to remain level in stairs.

Leg can compatible with dollies, makes your stand movable while doing work in the studio.

Double leg structs for extra strength and stability.
