

SHIELD 30

Product Overview

The SHIELD camera bag series combines lightweight design, modular storage, and professional-grade protection. It includes the SHIELD 10/20/30 models, enhancing load capacity and gear switching efficiency, suitable for a variety of scenarios like lightweight mirrorless setups, multiple cameras, and professional filmmaking equipment. With dual-layer expandable design, multiple pocket matrix, and customizable compartments, it accommodates drones and stabilizers. Military-grade protection features 1680D tear-resistant nylon and YKK double-lock systems, reinforcing impact resistance for outdoor use, delivering an innovative carrying experience for photography equipment.

Key Features

- Rugged exterior construction paired with protective interior layers.
- Ultra-wide main compartment opening.
- Safely fits cameras (even with matte box & microphone attached).
- Removable rigid internal dividers.
- Convenient side pockets.
- Ergonomic carry handle + padded shoulder strap.

Specifications

Model	Shield 30
Internal Size	60x29x30cm / 23.6x11.4x11.8in
External Size	65x35x36cm / 25.6x13.8x14.2in
Net Weight	4.0kg / 8.8lb
Water Repellent	Yes
Material	1680D nylon + 300G polyeser + 150D polyester

Features

Doctor's Bag-style Clasp Opening

The iconic metal-framed closure (reminiscent of traditional doctor's bags) enables wide, easy access to gear, merging secure, classic functionality with quick equipment retrieval.

All-around Convenient Side Pockets

Easy-access external storage for small pro gear accessories. Compact, unobtrusive design—won't interfere with main bag access or portability.

Dual-Lock Metal Bucklesment

It pairs durable metal buckles with reinforced webbing, uses dual-locking to avoid accidental openings, has corrosion-resistant, wear-proof hardware, and supports heavy loads for frequent use.

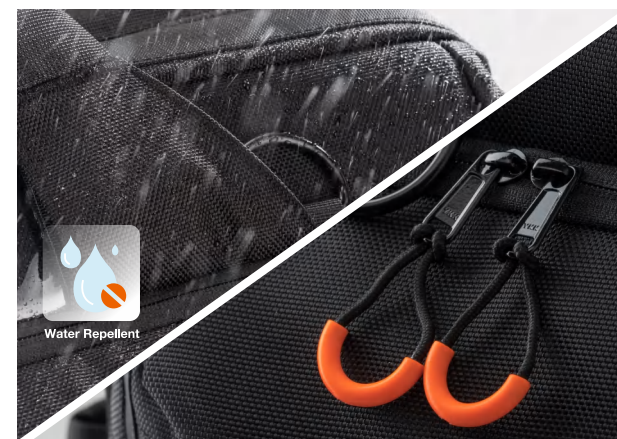

Reinforced Bag Base

Resists deformation, impacts, dirt & moisture; stays flat on uneven surfaces for better gear protection.

Comfy Carry

The ergonomic design of the shape and shoulder padding makes it comfortable to carry.

Water-Repellent Design

Light rain won't slow you down. The water-repellent coating on the top lid and base locks out moisture, keeping your gear dry and ready to capture the perfect shot—no matter the weather.

Smooth-operating YKK All-black Zippers

No snags, sleek scratch-resistant finish, durable for on-location gear access.
